## AIR LOGIC SOLUTIONS REPORTS SIGNIFICANT GROWTH IN 2003

Air Logic Solutions, the largest FAA and DOT Part 135 certified air carrier in the Tampa Bay area reports a record year for 2003. In June the company was awarded the industry's two highest safety ratings from Wyvern Aviation Consulting and AR/GUS Aviation Research Group. This acknowledgement of Air Logic's commitment to safety combined with its industry leading service has increased business at a record pace. Revenues for 2003 were up over 75%, flight hours were up by 65%, and the number of aircraft increased by 67%. The two newest aircraft added to its fleet are a Hawker 800XP and a King Air C90B. The company also added offices to both Central and Southern Florida including a full service maintenance facility and hangar in Lakeland. "We are proud that all of our hard work, our commitment to safety, and our fundamental mission to always exceed our customer's expectations has resonated with the consumer. We believe that we provide a superior product and now the numbers are beginning to show it." said John Fenton, Director of Operations of Air Logic Solutions.

## About Air Logic Solutions

The mission of Air Logic Solutions is to be Florida's premier corporate aviation company with its primary objective of *consistently exceeding our customer's expectations*. We are committed to bringing the highest standards of safety and service to the private air carrier, aircraft charter, aircraft management, brokerage and aviation consulting markets.

Air Logic Solutions is the leader in aircraft management and air charter businesses in West-Central Florida. We are the largest FAA and DOT Part 135 certified air carrier in the Tampa Bay area. We believe that safety, blended with excellent service is the foundation for a successful air charter business. Air Logic Solutions, headquartered in Tampa, is currently providing worldwide air charter, aircraft management and aviation consulting services. Air Logic owns and manages a fleet of state-of-the-art Challenger 604, Beechjet 400A, Hawker 800XP and King Air aircraft.

Safety is our number one priority. All of our aircraft are maintained under Factory approved programs, which meet or exceed FAA requirements. Our pilots are highly experienced and exceptionally well qualified. We require our crews to be trained to equivalent standards as those maintained by major airlines. Our Captains average 6500 hours of flight time and First Officers average more that 3000 hours of flight time. Our crews are trained at FlightSafety International twice annually. The FAA or its designee also tests our crews every 6 months.
